## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/27/07 has been entered.
2. As requested in the submission, claim 1 has been amended, claims 14-17 have been newly added, claim 2 and 5-13 have been cancelled.
3. Claims 1, 3, 4 and 14-17 are pending in the instant application.

### ***Election/Restrictions***

4. Newly submitted claims 14-16 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 14-16 and the claims originally presented related as combination/subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not require

perforating elements extending a distance from the planar surface at a length between 0.02 and 1.0 mm, and having a density of 5 to 300 perforating elements per cm<sup>2</sup>. The subcombination has separate utility such as a perforation device for perforating plastic bags.

5. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-16 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

#### ***Allowable Subject Matter***

6. Claims 1, 2, 3, 4 and 14 are allowed.

#### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure in that it discloses gel having perforations therein.
